PROFESSIONAL EXPERIENCE

Senior Software Engineer

Mirror Progress
San Francisco, CA - Remote
Apr 2024 – August 2025

- Led design and implementation of internal portals, enhancing operational efficiency and improving workflows, aligning with Slice's mission to empower pizzerias.
- Collaborated with stakeholders to transform business challenges into technology solutions, driving operational improvements and customer satisfaction.
- Championed modern engineering practices, improving code quality and team collaboration, resonating with Slice's agile and collaborative team environment.

Founding Engineer

MachineKingLaps
Remote, US
April 2025 – Present

- Designed and launched a scalable SaaS platform incorporating advanced security and cloud services, akin to building backend features for Slice's restaurant partners.
- Guided product strategy from conception to execution, aligning with business goals and enhancing user adoption, similar to owning projects end-to-end at Slice.
- Optimized system performance through data-driven improvements, reflecting Slice's focus on ensuring quality and performance at scale.

React Developer

Manifest FTS
Remote, NC, USA
Sep 2023 – Jul 2024

- Delivered responsive, interactive UI features, enhancing user experience, paralleling Slice's focus on delivering exceptional customer interactions.
- Collaborated with product and design teams to ensure seamless feature implementation, resonating with Slice's collaborative, cross-functional team dynamics.
- Applied data-driven analysis to improve customer experience, streamlining workflows and increasing efficiency, aligning with Slice's goal of delivering disproportionate value.

Software Developer

PayTrippa
Remote, San Francisco, CA
May 2022 – Jun 2023

- Contributed to innovative fintech applications, enhancing platform reliability and user engagement, similar to building innovative features at Slice.
- Worked closely with product managers to deliver new features aligned with market demands, akin to identifying game-changing opportunities at Slice.

- Optimized backend processes, improving scalability and performance, reflecting Slice's emphasis on scalable solutions.
- **Full-Stack Developer (Consultant)**
- Upwork Jan 2022 – Present
- Remote
- Delivered custom end-to-end solutions for global clients, focusing on performance and growth, mirroring Slice's mission of empowering local businesses.
 - Acted as a trusted technical partner, guiding clients through requirements and deployment phases, similar to owning projects at Slice.

<> **PROJECTS**

Hey You're Hired (Link)	Jan 2025
Contributed to building a SaaS platform streamlining job search processes, focusing on scalability, maintainability, and user engagement, mirroring Slice's customer-centric approach.	
NC Waterfall (Link)	Jul 2024
Designed and implemented a responsive website showcasing waterfall photography, emphasizing seamless user experience and high performance.	
Internal Portal (Link)	Jan 2024
Developed a comprehensive internal portal for NAWC, reducing processing time by 25%, showcasing my ability to deliver impactful backend solutions.
